Union Members Support Budget without Governor Hogan's Sick Leave and Overtime Cuts

Annapolis - "AFSCME members worked hard to negotiate a fair pay raise for all of the hard-working, middle class families of state and higher education employees which did not include Governor Hogan's initial proposal to give up sick leave rights or overtime pay when they are required to work overtime.

AFSCME members support a budget which includes a fair pay raise, which does not require them to pay for it." - Patrick Moran, AFSCME Maryland Council 3 President

###

AFSCME Maryland Council 3 represents more than 25,000 state and university employees in the State of Maryland.
