AFSCME Statement on DPSCS Audit: Lack of Competitive Bids Are a Bad Deal for Taxpayers and State Employees

Baltimore – “It is a bad deal for taxpayers and for employees when multiple functions are rolled into one contract and there are not competitive bids. This is exactly what we were concerned about when we spoke out before Board of Public Works.

It reeks of cronyism and doling out favors to the private prison industry. Former Secretary Gary Maynard should be ashamed of this. We anticipate the Hogan administration will clean this mess up, if they live up to their campaign rhetoric.” - Patrick Moran, President AFSCME Maryland Council 3
