## **Hogan has still not ruled out furloughs.**

“Governor Hogan has still not said if he will furlough state employees. That would be a pay cut - temporary, but still a pay cut.

State and university employees already received a 2% raise in January.

Today’s announcement is Governor Hogan finally admitting he won’t take away a raise, middle-class workers already had beginning in January.”

– Patrick Moran, President AFSCME Maryland Council 3
