Issue of the Employees Grievance: State employees whose duties require them to report to work to continue agency operations during an emergency condition or who are required to report to work during a declared emergency condition are entitled to be credited (i.e. paid) two hours of work time for each hour actually worked. By proclamation issued March 5, 2020, Governor Larry Hogan declared that COVID 19 is a public health catastrophe and public emergency, poses an immediate danger to public safety, and that therefore the State was in a state of emergency and that a catastrophic health emergency exists within the entire state. On March 12, 2020 Governor Hogan issued an executive order noting that COVID-19 easily spreads and therefore elevating the State employment practices under the Pandemic Flu and Other Infections Diseases Attendance and Leave Policy and began to sharply curtailing State employees required to report to worksites. The State then properly credited and paid employees who reported to work or were ordered to report to work. However, on March 21, 2020, DBM announced that the pay would stop as of midnight on the morning of March 23, 2020. As a result, the agencies of the State ceased reporting and having paid the pay to which employees are entitled. The State and its agencies did so despite the worsening pandemic in Maryland and in State Government and despite non-essential businesses being ordered and remaining closed, along with a stay-at-home order (beginning March 30, 2020). The State did so despite that State employees reporting to work remain exposed to harm and unsafe conditions that threaten their lives.

Issues of Fact and Law: AFSCME MOU Art 10, Sec. 5, the Procedure for the Release of State Employees Under Emergency Conditions (1999), DBM's Pandemic Flu Attendance and Leave Policy, other facts and laws will be developed through the grievance procedure.

Remedy: Credit the employee with two hours of work time for each hour actually worked during the closure, from the period where the premium pay stopped on March 23, continuing until the State of Emergency is reduced and reporting to work does not expose employees to harm and unsafe conditions that threaten their lives.
